Kattis

August 20, 2021

0.1   Kattis (https://open.kattis.com)

- throughout these notebooks, you'll find Kattis problems listed under each chapter where appropriate
- Kattis is a free problem bank and online judge that is widely used in International Collegiate Programming Contest (ICPC) around the world
- Kattis is a great tool to learn various programming languages while solving myriad of intuitive algorithmic problems and developing problem solving skills that are sought after by many potential employers
- research (https://rambasnet.github.io/pdfs/kattis.pdf) has shown that by introducing and assigning Kattis problems motivates students to continuously use Kattis and solve more problems there by becoming an effective problem solver – a hallmark skill of computer scientist
- here's a repository of some sample solutions provided in various languages with automated test cases: https://github.com/rambasnet/KattisDemos
    - eventually (by Chapter 7), you'll be able to understand and use the all the programming concepts used in those demo solutions
- use Kattis provided help to get your started: https://open.kattis.com/help
- you must create a free acount here: https://open.kattis.com/login to be able to submit your solution so the Kattis can judge it providing you the verdict
